

功能	ATSQL
创建数据库	<pre>create table chufang4(id int primary key, name varchar(100) not null, mename varchar(100) not null);</pre>
带条件查询	<pre>select * from student where course_id=100070;</pre> <pre>select * from student where course_id=100070 and sid=64;</pre>
结果集排序	<pre>select * from student order by course_id;</pre>
联合查询	<pre>select * from student ,courses where student.course_id=courses.cid;</pre>
嵌套查询	<pre>select * from student where course_id in (select course_id from student where name = 'Cheryl Wagner');</pre>
